OUR STORY

UOW MALAYSIA IS PART OF THE UNIVERSITY OF WOLLONGONG AUSTRALIA'S GLOBAL NETWORK, BUT HAS A LONG HISTORY OF PROVIDING ACCESSIBLE, QUALITY, TERTIARY EDUCATION IN MALAYSIA, AND THE SURROUNDING REGIONS, AS KDU COLLEGE AND UNIVERSITY COLLEGES.

In November 2018, KDU entered into an agreement whereby UOW Global Enterprises, a wholly owned subsidiary of University of Wollongong Australia, acquired a controlling stake in the KDU university colleges and college. Subsequently, in November 2019, the name of the college and university colleges were changed to reflect the stewardship of the University of Wollongong and are now collectively known as UOW Malaysia. UOW Malaysia comprises the University of Wollongong Malaysia, UOW Malaysia KDU Penang University College, UOW Malaysia KDU College and UOW Malaysia College. In addition to Malaysia, the University of Wollongong's global network extends to campuses in Australia, Dubai and Hong Kong.

UOW Malaysia shares UOW's spirit of innovation and focus on producing career-ready graduates to meet real-world needs. This expansion allows a combination of UOW's internationally recognised teaching programs and personalised approach with UOW Malaysia's state-of-the-art campuses and vibrant, industry-focused programs. These range from Foundation and Bachelor's Degree to Postgraduate levels in Business, Communication, Creative Arts, Computing, Game Development, Engineering, Hospitality, Tourism, Culinary Arts, and Nursing. Further, it provides a high-quality educational experience that will help shape graduates and foster their growth in becoming future global leaders.

UNIVERSITY OF WOLLONGONG MALAYSIA, UTROPOLIS GLENMARIE, SELANGOR

In January 2015, the University of Wollongong Malaysia relocated to its new flagship campus at Utropolis Glenmarie, featuring state-of-the-art facilities and a contemporary teaching and learning environment. UOW Malaysia offers a wide range of programmes at Certificate, Diploma, Degree, and Postgraduate levels and has introduced home-grown degree programmes that are at the forefront of growing industries, reflecting its promise of being a real-world learning institution meeting real-world needs. Programs offered include hospitality, tourism and culinary arts, game development and computing, communications and creative arts, business, and engineering.

UOW MALAYSIA KDU PENANG UNIVERSITY COLLEGE, BATU KAWAN, PENANG

The Batu Kawan campus is the newest addition to the UOW Malaysia KDU network, bringing an Australian higher education experience to Mainland Penang for the first time. Designed as a green campus within a park environment, students are welcomed by generous landscaping and vibrant educational spaces, including an expansive library. A chill-out lounge on campus also features a gym and recreational facilities.

Connected by a covered walkway, Utropolis Batu Kawan provides convenient hostel accommodation, including a swimming pool, a gym, and a futsal court. The campus is located next to IKEA, the Design Village shopping precinct, and adjacent to the Batu Kawan Industrial Park, ensuring optimal collaboration with employers and providing students with opportunities for internships and professional activities.

Multidisciplinary. Flexible. Stimulating independence and creativity.

The UOW Malaysia's Foundation Programs (Foundation Studies and Foundation in Arts) are a one-year multidisciplinary foundation level pre-university program aimed at preparing students for further study in the fields of (but not limited to):

- Business
- Communication & Creative Arts
- Computing
- Digital & Creative Media
- Game Development
- Hospitality
- Law

This flexible program ensures students are grounded with a strong grasp of core subjects according to their choice of discipline areas at degree level, as well as a variety of other subjects to give them a broad-based education and holistic 21st century soft skills advantage. It also helps them to explore new methods and ideas, as well as skills and concepts, to encourage independent and critical thinking; and public speaking and presentation techniques. Upon completion, students will be able to articulate seamlessly into various degree programs, offered at UOW Malaysia.

BUSINESS

The School of Business at UOW Malaysia is dedicated to sustainability and entrepreneurship, ensuring our graduates “Graduate with an Entrepreneurial Drive”.

Our curriculum isn't just shaped by textbooks—it's crafted with input from industry leaders to make sure our students are getting the skills and know-how that employers need. Thanks to our strong industry partnerships, our students will not just be learning in the classroom—they dive into real-world projects through our 'Industry Module Adoption' program, gaining hands-on experience that sets them apart.

Here's the fast track: our programs are accredited by top professional bodies, meaning our students have a quicker route to certifications and career success. We also focus on building the profile of our students through internships, industry projects, and leadership opportunities that prepare them to shine in the business world.

In short, the School of Business is dedicated to providing our students the launchpad they need to ignite their entrepreneurial drive and unlock limitless possibilities!

Industry-Driven Curriculum curated in collaboration with our impressive Industry Advisory Panel.

Part of a global network that allows us to provide students with global exposure and opportunities.

Strong industry partners provide strong placement opportunities, and students get to work on real projects with the industry under the 'Industry Module Adoption' programme.

Programmes are accredited by professional bodies, allowing students a faster route to professional certification.

Opportunities for students to build their resumes and boost their confidence.

Proven track record with alumni's employers.

Getting down to business.

Business is everywhere, virtually and physically. Get ahead-start in learning how to manage a business with UOW Malaysia's Diploma in Business Management program by Open and Distance Learning (ODL) mode. This program provides students with necessary foundation and knowledge of growing a business in today's fast paced competitive work environment.

The program offers flexibility for students who prefers to learn at their own pace and place, hence not restricted by the traditional timex classes. The program is expected to produce quality graduates as well as meet the requirements set by the business industry, marketing, finance, and human resources management. This is achievable by exposing them to a well-balanced curriculum that is industry driven. A combination of understanding the concepts of business, critical thinking and ethics is constantly instilled by the respective subjects. The offered curriculum is expected to produce graduates that are well versed in the field of business and marketing apart from being sensitive to new ideas, societal issues and humankind.

We prepare you to be a global leader.

This program offers students the opportunity to combine the study of key international business issues with the study of language and culture. Another distinguishing feature of this program is the inclusion of business consultancy modules, which provide students with an understanding of, and hands-on experience with, consultancy from both the client and the consultant's perspectives. Students work closely with an external organisation on a "real-life" project in order to develop the skills needed to perform the assigned consultancy task. Besides, the student will be encouraged and supported in their third year spent outside of Malaysia, which can be in a work placement, study abroad or a combination of both these activities.

COMMUNICATION & CREATIVE ARTS

UOW Malaysia offers an environment for mass communication and creative arts students to immerse themselves in their passion and explore their potential as they develop their talents.

Our communication and creative arts programs are carefully designed and developed with insights from industry professionals, and its syllabus is thoughtfully curated to keep students up-to-date with emerging practices and standards in the communication and creative arts fields while ensuring they have a strong understanding of conventional mass communication and arts.

UOW Malaysia prides itself on offering real-world education to meet real-world needs, and as such, students will benefit from our state-of-the-art mass communication and creative arts facilities. They will be able to learn through hands-on practices and train to develop their skills in our industry-standard labs and studios. There are also great opportunities for students from multi-disciplines to synergise and be involved in different aspects of project management and client interaction in the industry. Through these real-world projects, campaigns, showcases and performances, our students emerge to become confident and adaptive graduates with a mix industry experience, up-to-date skills, and resourceful, imaginative and critical thinking skills.

Experienced provider in the communication and media industry.

Industry-focused programs with holistic education.

Well-equipped facilities such as editing suites, photography studios and sound recording studios.

A robust community for talent development.

Public relations is a strategic communication process that builds mutually beneficial relationships between organizations and their public. With the influence of social media, companies are now facing constant responses from their customers through comments or postings on social media. This could go viral within seconds which might disrupt the reputation of the organization. Increasingly, the corporate world in Malaysia is well aware of the need for professionally trained public relations personnel in this complex corporate communication era. This is why graduates of public relation course in Malaysia are highly sought after. The communication talent in this field will help corporates handle the new challenges posed by the clients as well as the industry.

Building solutions for the future and enabling the age of the digital revolution.

The expanding integration of internet technologies coupled with the growth in e-commerce has resulted in a rising demand for software engineers. As computer systems become increasingly sophisticated, software engineers are expected to design, implement, safeguard and update systems. Students are exposed to valuable insights in utilising systematic and disciplined approaches to creating quality software products. They also gain core software development knowledge, which includes skills and techniques in modelling and analysis, software design, development, verification and validation, maintenance and management systems.

The Bachelor of Computer Science award is accredited by the Australian Computer Society (ACS) to fulfill the criteria of the professional level membership.

Be a part of the UOW global network of alumni that spans South East Asia, Australia and the Middle East for international networking opportunities.

Opportunity to graduate at the beautiful coastal city of Wollongong, NSW Australia.

ENGINEERING

The School of Engineering is one of the fastest-growing schools, emphasising quality education and being dedicated to equipping the next generation of engineering leaders to thrive in the current dynamic workforce.

The curriculum is designed to stay ahead of industry trends, incorporating cutting-edge subjects such as artificial intelligence, robotics, IC design, renewable energy, and sustainability. These forward-thinking courses provide students with the skills and knowledge needed to meet industrial standards and tackle the complex challenges of the future.

At the School of Engineering, students have ample opportunities to apply their learning through hands-on projects and internships, collaborating with industry partners to solve real-world problems. This unique approach ensures that graduates are well-equipped to lead the way in their respective fields.

Housed in state-of-the-art facilities that mirror industrial standards, the School of Engineering is committed to providing a truly transformative educational experience. Join us as we redefine the boundaries of engineering excellence and prepare the innovators of tomorrow.

Fully accredited programs with international recognition through the Washington Accord.

Students solve real-world problems through creative, hands-on experiences.

Advanced facilities foster cutting-edge research and industry collaboration.

Curriculum includes cutting-edge subjects aligned with industry trends.

Exceptional pastoral care with extended consultation hours supports student success.

Enabling great technologies through electrical and electronics engineering.

Technologies such as universal electric power, television, medical imaging are all examples of how electrical and electronics engineering play a strong role in modern society. UOW Malaysia's Bachelor of Electrical & Electronics Engineering with Honours provides students with a broadbased education in electrical and electronics engineering, and equips them with the technical knowledge and skills necessary to design, assess and improve electrical and electronic products and service.

This program is fully accredited by the Board of Engineers Malaysia (BEM). Our graduates are also recognised internationally through the Washington Accord of the International Engineering Alliance.

Entry Requirement:

STPM - 2 Principal Passes (2Cs) inclusive of Mathematics and Physics

A-Levels - 2 Principal Passes (2Ds) for Mathematics and Physics

UEC - Min. 5 Credits inclusive of Mathematics and Physics

Foundation/Matriculation - Pass with min. CGPA of 2.00

Diploma - Diploma in Engineering; Pass with min. CGPA of 2.00

English Entry Requirement:

*Band 4 in MUET

**Band 5.5 in IELTS; or a min score of 46 (IBT) or 8 (Essentials-Online) in TOEFL; or Cambridge English CAE & CPE (from 2015) (160); or PTE Academic (51)

Bachelor of Mechanical Engineering with Honours

Selangor

R2/0714/6/0009(02/32) MQA/FA 2023

International Students	RM	116,990

Master complex mechanical engineering systems.

Mechanical engineers work with advanced technology across a wide range of specialisations.

At UOW Malaysia, the Bachelor of Mechanical Engineering with Honours program enables students to apply the principles of physics and material science to design, produce and operate a wide variety of equipment and systems. Our approach is holistic learning to ensure graduates are well equipped with a solid platform for adaptation to ever-changing developments in science and technology, thus meeting the rigorous demands of global industries. Students will gain various opportunities for hands-on training to hone their technical skills and knowledge through various subjects, to be completed in our state-of-the-art laboratories. Our Design Centric Curriculum also ensures that students will be able to apply their analytical and design skills through creative problem-solving in industry projects.

This program is fully accredited by the Board of Engineers Malaysia (BEM). Our graduates are also recognised internationally through the Washington Accord of the International Engineering Alliance.

Entry Requirement:

STPM - 2 Principal Passes (2Cs) inclusive of Mathematics and Physics

A-Levels - 2 Principal Passes (2Ds) for Mathematics and Physics

Bachelor of Mechatronics Engineering with Honours

Intakes:

February, June and September

Duration:

4 Years (Full-Time)

Estimated Fees:

Fees

Local Students	RM	99,085
International Students	RM	116,990

The interdisciplinary nature of mechatronics, which encompasses mechanical, electronics, computer, control and systems design engineering; is envisaged to become more important in the future, both domestically as well as globally. Mechatronics has been recognized as a continuous evolving reality in the creation of intelligent machines and advanced manufacturing and processing systems.

At UOW Malaysia, the Bachelor of Mechatronics Engineering with Honours program is designed to expose students to the principles and practice of mechatronics by gaining knowledge of engineering processes, mechanical principles, as well as the use of digital electronics, 3D printing technology and computer-aided (CAD) software. It has a strong focus on design-and hands-on projectbased learning activities that use equipment associated with robotics, industrial control and advanced manufacturing. Thus, provides a holistic preparation for students to embark into future challenges in existing and emerging sectors.

This program is fully accredited by the Board of Engineers Malaysia (BEM). Our graduates are also recognised internationally through the Washington Accord of the International Engineering Alliance.

Entry Requirement:

STPM - 2 Principal Passes (2Cs) inclusive of Mathematics and Physics

A-Levels - 2 Principal Passes (2Ds) for Mathematics and Physics

Mechatronics is a multidisciplinary field that focuses on mechanical, electronics and computing, in creating engineering solution.

This program is broad-based and specifically designed to integrate three major areas – electrical, electronics and mechanical engineering – into one stream. These courses give students theoretical and practical introduction to a career in electrical, electronics & mechanical engineering. This comprehensive, organized and focused program provides the students with more flexibility in choosing or tailoring their career paths and endeavors.

Entry Requirement:

SPM / O-Levels - 3 Credits including Mathematics and 1 relevant Science / technical / vocational subject

UEC - 3 Credits including Credit in Mathematics and 1 Science subject

Certificate in related field - Pass

English Entry Requirement:

*Pass (English at SPM level or equivalent); or Band 3.5 in MUET

**Band 5.0 in IELTS; or a min score of 40 (IBT) or 7.5 (Essentials-Online) in TOEFL; or Cambridge English CAE & CPE (from 2015) (154); or PTE Academic (47)

BUILT ENVIRONMENT

Built Environment is a broad and fascinating field that comprises the human-made surroundings that shape the world around us. It includes everything from the buildings we live and work in, to the infrastructure that connects us, and the urban landscapes.

By studying the Built Environment, you can gain the knowledge and skills to contribute to creating sustainable, resilient, and equitable communities for future generations.

At UOW Malaysia our program focuses on Interior Design and Architecture, studies that are interdisciplinary and often overlap with other aspects such as architecture, engineering, urban planning, geography, history, visual arts, interior design, industrial design, environmental studies and sociology.

A full team of talented lecturers, distinguished in both academia and industry.

Our curriculum is designed to empower our students as *Creativepreneurs* by fostering a fusion of creativity and entrepreneurial thinking.

Provides students with opportunities to collaborate with industry professionals on real-world projects.

Utilising industry-standard software to provide hands-on experience.

Diploma in Interior Design

Transforming space, creating lifestyle.

In this program, students discover the beauty and practicality of built environment design. By learning the design process of interior design and architecture, we allow students to delve deeper into the creative aspect of built environment design. This program provides our students with hands-on experience with design, through the understanding of material, design process, techniques and the application of digital software.

We ensure our students are provided with a holistic design education in order for them to further pursue their design aspirations. Upon graduation, our students have the option of beginning their design career, or proceed to a degree program in Interior Architecture.

Entry Requirement:

HOSPITALITY, TOURISM & CULINARY ARTS

The School of Hospitality, Tourism & Culinary Arts at UOW Malaysia is a leading institution dedicated to nurturing talent in the hospitality, tourism, and culinary industries.

With a strong emphasis on experiential learning, the school offers a diverse range of programs, from diplomas to bachelor's degrees, all designed to equip students with the skills and knowledge required in these dynamic fields. The curriculum integrates practical training with academic theory, ensuring that students are well-prepared to meet industry demands.

The school is recognised for its state-of-the-art facilities, including fully equipped kitchens, a mock suite, student-run restaurants, and a cafe, providing students with hands-on experience in real-world environments. Collaboration with industry partners and opportunities for internships both locally and internationally further enhance students' readiness for the global job market.

UOW Malaysia's School of Hospitality, Tourism & Culinary Arts is committed to fostering innovation, sustainability, and excellence, ensuring graduates are well-positioned to lead and excel in the ever-evolving hospitality, tourism, and culinary sectors.

Industry-relevant curriculum: Aligned with global hospitality and tourism standards.

State-of-the-art facilities: Modern kitchens, a mock suite, and training restaurants.

Experiential learning: Hands-on training and real-world industry exposure.

Global partnerships: International internships and study abroad opportunities.

Expert faculty: Industry professionals and academic leaders guiding students.

Sustainability focus: Emphasis on sustainable practices in hospitality and tourism.

Certificate in Hotel Operations

R/811/3/0280(07/25) MQA/FA 6154

Intakes:

February, June and September

Duration:

1 Year 5 Months (Full-Time)

Estimated Fees:

Fees

Local Students	RM	17,725
International Students	RM	26,240

First step into the dynamic hospitality industry.

The Certificate in Hotel Operations equips students with the essential learning and fundamental skills needed to step into further studies of the dynamic international hospitality industry of today. Students will be introduced to the various facets of hospitality operations such as front office, housekeeping, food and beverage service, and culinary arts.

The program covers both practical and theoretical aspects by combining both classroom learning and industry placement to prepare those who intend to continue their education or join the work force.

Upon graduation, students may articulate into diploma programs in hospitality & culinary arts. They may also flow-through to the business or mass communication diploma programs at UOW Malaysia.

Entry Requirement:

SPM / GCE O-Levels - Pass with min. 1 Credit in any subject and a Pass in English

UEC - Min. 1 Credit

English Entry Requirement:

*Pass (SPM / 1119 / UEC / O-Levels examination)

Embrace creativity & innovation in a new world of avant garde cuisine!

The gastronomic experience is no longer just about cooking skills. Students today who aspire to become professionals in the industry, need to understand nutrition, culinary artistry and menu planning amongst other things. Our degree program prepares students to address all aspects of the kitchen and meet the challenges of an increasingly sophisticated and demanding culinary industry. In addition to subjects such as Culinary Essentials, Garde Manger and Basic Patisserie, students will also undertake subjects such as Corporate Social Responsibility, Entrepreneurship, Hospitality Marketing and more.

Students may choose from two different specialisations:

- Culinary Operations
- Baking and Pastry

Students' undertaking either specialisations can now further enhance their culinary education with the semester abroad option at ALMA La Scuola Internazionale di Cucina Italiana, Italy (separate charges apply).

Entry Requirement:

STPM - 2 Principal Passes (2Cs)

OUR INTERNATIONAL PARTNERS

ALMA®

La Scuola Internazionale
di Cucina Italiana

ALMA LA SCUOLA INTERNAZIONALE DI CUCINA ITALIANA

UOW Malaysia's School of Hospitality, Tourism & Culinary Arts (SHTCA) is proud to announce its collaboration with ALMA La Scuola Internazionale di Cucina Italiana, Colorno, Italia, the world's leading international educational and training centre for Italian Cuisine.

Through this collaboration, the implementation of the Master Chef Certification program for UOW Malaysia culinary lecturers was established, providing training in the academic of Italian cuisine and pastry.

ALMA educates chefs and sommeliers from all around the world forming professional of Italian Cuisine with training programs performed at the highest level by the most awarded teachers.

- Obtain additional certificate for culinary programs taken at UOW Malaysia
- Compulsory internship at the most renowned restaurants in Italy, including Michelin-starred restaurants
- Meet the Italian Guest Chefs, being face-to-face with the greatest professionals
- Discover the regional products by visiting local producers in field trips
- Delve deeper in the Italian history, culture and language

IMI UNIVERSITY CENTRE SWITZERLAND

UOW Malaysia's School of Hospitality, Tourism & Culinary Arts offers a complete Swiss experience through its collaboration with IMI University Centre Switzerland.

Its partnership with the IMI University Centre Switzerland enables the school to offer IMI programs in Malaysia, without students having to go abroad. One of the unique features of the UOWM-IMI programs is the exposure to industry placement in reputable local or international hotels and restaurants where practical skills are enhanced in real-life situations.

IMI University Centre Switzerland is a unique, private, International Management Institute founded in 1991. Students at IMI can be assured of a highly personalised and individual approach to their learning. A qualification from IMI is a stamp of excellence on any curriculum vitae and will ensure that students are top of the pile for first important interviews.

IMI University Centre Switzerland and UOW Malaysia has definitely come a long way, combining quality academic teaching, practical training, excellent industry placements, and international exposure, all a recipe for success.

- Dual Degree from UOW Malaysia & IMI Switzerland
- Study opportunity in Lucerne, Switzerland with guaranteed internship
- UOW Malaysia comprises 65,000 SQFT of world-class facilities
- Study opportunity at IMI Switzerland ranked 17th in QS 2024
- Michelin Star Award-Winning Alumni

“

“Every dish, whether it’s a success or a failure, teaches you something valuable, even if it takes time to master. Don’t let the mistakes define or discourage you.”

HANS KHOO YONG QIN
BACHELOR OF CULINARY MANAGEMENT
(HONS)

”

For over two decades, the UOW Malaysia KDU College has been offering legal education through its School of Law.

A comprehensive approach to law as an academic field forms the foundation of the liberal education in law offered by the School of Law. Along with providing students with a critical examination of laws to meet the demands of organisations, social changes, and justice, the school also equips students with practical professional skills and professional ethics.

We support students in gaining the capacity to recognise and comprehend important ideas in legal theory, substantive law, and procedure in both domestic and international legal contexts.

Students develop the ability to work collaboratively in a range of legal situations and settings by applying their knowledge and critical thinking skills to effectively conduct legal analysis, reasoning, and problem-solving. They acquire crucial communication abilities, including critical reading, effective listening, objective and persuasive writing, advocacy, and the capacity to carry out in-depth domestic and international research. Occasionally, the school hosts visiting scholars from other common law nations, as well as experts from Malaysia's legal community. Students attend lectures and seminars delivered by these visiting academic members.

More than twenty years' experience in conducting UOL LLB Program.

Outstanding results achieved in 2023/2024.

Experienced lecturers.

UK transfer degree programs available.

Extremely active Law Society (Moot Court) – provides students with courtroom experience.

Excellent learning environment - peaceful, green and lush.

SOCIAL SCIENCE

Social sciences are the study of humanities, the society and its social relationships.

The social sciences area includes cultural or social anthropology, social communication, sociology, social psychology, psychology, political science, and economics. The social sciences subjects at UOW Malaysia are developed with a deep understanding on how the human society works. Our students are equipped to become an expert in their own sphere, taking a more holistic approach to understanding the society, its evolutions, and the social relationships between individual and the state.

By studying the Social Sciences at UOW Malaysia, we ensure our students are trained in their mindset to encourage critical and innovative thinking, developing lifelong learning skills and empowering the communicative and problem-solving skills which are vital in ensuring the career success.

Our Social Sciences graduates will undoubtedly find their places in the society playing pivotal role such as policymakers, decision-makers, top managerial roles in governments and large corporations.

Holistic learning approach.

Real-Life knowledge and experience.

Alignment with national education goals.

Nurturing ethical and quality educators.

Adaptation of diverse educational approaches.
